Autumn Term 2018

Class Ireland Creative Curriculum

Time Tunnel

All about me in living memory

This is a **History** based unit. We will initially focus upon **OURSELVES** and getting to know one another and changes in living memory. We will then think about family and significant events and festivals. **PSED** — We will be looking at 'Myself and My Relationships' through Beginning & Belonging and My family, friends and my emotions. **Communication and Language**- We will develop the skill of maintaining attention and listening and responding appropriately to conversation and questions. **Physical Development**- We will be doing daily physical activities that include balance and coordination. We will also have specific lessons following our theme in both Gymnastics and dance. **Literacy** — We will looking at stories related to our theme including traditional and fairy tales. **Maths**— We will learn how to count reliably up to 10, matching numerals. Compare two lengths and heights, using direct comparison; use language of longer and shorter, higher and lower. Use uniform non-standard units to measure items up to 10 units long and put three lengths and heights in order. Continue a repeating pattern with two colours/shapes/objects. Rehearse counting to 20 and identifying basic 3D shapes and their properties. **Understanding the World**— We will learn to log on and simple keyboard skills and basic e-safety. We will look at seasonal changes and uses of everyday materials. **Expressive Arts and Design** —We will be designing our own homes, using cutting and joining techniques that we have learnt. **RE** - Is establishing effective relationships with adults and other children, recognising and exploring feelings and recognising special times .
