

## *Modern British Values at Ancaster Church of England Primary School*

DfE definition (2014)

'Schools should promote the fundamental British values of democracy, the rule of law, individual liberty, and mutual respect and tolerance of those with different faiths and beliefs'

This involves:

- An understanding as to how citizens can influence decision-making through the democratic process
- An understanding that participation in elections by those opposed to democracy should be allowed by law, but the success of such candidates is undesirable for the well-being of society if it would lead to the end of democracy
- An understanding that bodies such as the police and the army can be held to account by the people, through the democratic organs of government
- An understanding that the freedom to hold other faiths and beliefs is protected in law, and an acceptance that other people having different faiths or beliefs to oneself (or having none) should not be the cause of prejudicial or discriminatory behaviour

**At Ancaster Church of England Primary School we recognise, promote and teach modern British values in the following ways:**
