Spring Term 2018

Class New Zealand Creative Curriculum Journeys- Could this be our greatest adventure yet?

Key Dates:

Parent sharing assembly (7th February- 9am)

Science Week (W/C 12th March)

Sublime Science Workshop (16th March)

Easter Enrichment-Arts Focus (W/C 26th March)

This term our topic will take us on a journey to all four corners of the world. Our class novel 'Cogheart' will transport us back in time for an adventure in the Victorian Steampunk enthused world of Peter Bunzl; inspiring a wealth of creative writing in **English** including: vivid descriptions, interesting characterisations and reports on our very own mechanimals. Closely linked, we will combine our **Art, Computing** and **DT** to create a zoetrope- a popular Victorian moving animation toy. In **RE**, we will jet off to Asia and explore the origins of Buddhism 2500 years ago, Buddhist worship and beliefs. The journey of light will be our focus in **Science**, from its travel through the human eye, to the awe inspiring natural phenomena relating to light we will observe. Finally, **Geography** will jet us off to New Zealand to make comparisons of the climate, physical features and culture- with the United Kingdom. A perfect platform, to study real life statistics including graphs and charts, time zones and measures in our **maths**. Could this be our greatest adventure yet?
