

Class News

Welcome back! I hope you all had an enjoyable Easter and you are ready for the fun-filled term we have ahead of us! I can't quite believe that it has been almost a whole year since Class Scotland made their initial visits to Ancaster Primary School. They have certainly flourished and become highly valued members of the school community. I would like to thank you all for your continued support. This is an extremely important term for the children, as they begin transition activities to prepare for Year One learning. Within reading, we will continue to focus on blending and segmenting with greater independence, so please continue to share books at home to help embed these important skills. We look forward to working closely with you throughout the term and are happy to answer any questions on the playground from 8.45am each morning. - Mrs Owen and the EYFS team.

Attendance

Well done Class Scotland! Last term we won the Attendance Prize box for several weeks in a row. Please keep your high attendance up. Arriving at school on time and every day ensures your learning is maximised and you get to participate in new challenges every day.

How many times will we win the box this term?

Communication

Please continue to check the school website, Twitter and whole school newsletters for the most up-to-date information and diary dates. Remember to ask your child about school events and news.

Please inform Mrs Beard of any changes to your contact details for Parent Mail.

Space Challenge Home Learning!

Last term the children decided they wanted to learn about space travel and the solar system. We would like to create a 'Space Museum' in our classroom that represents the children's own interests and fascinations. Please work with your child over the course of the term to produce a piece of high quality home learning to showcase in school. This could take the form of a project book, a piece of art, a model, a video document or any other creative form. Whilst we know the children will be eager to bring their work in, please wait for our 'Space Museum' launch day of **Thursday 25th May 2017**. The museum will form an exciting part of our class WOW dress up day too.

Uniform and Water Bottles

We will be placing an emphasis on the importance on staying hydrated and drinking lots. Please ensure your child has a **named water bottle**. On sunny days school jumpers have a tendency to get swapped and lost! Whilst we actively encourage the children to put these in their lockers, please support us by making sure all uniform is **fully labelled**, so we can return it to the right child.
